# 31358-ME

# **Multifunction AC Panel Meter**

Back-lit, Snap-in LCD panel meter that measures AC Volts, Amps, Watts, Watt hours, Operational Time (Run Time).

Ideal for submetering and monitoring.

Accuracy: +-1% +-1LSD W: 3-3/4" H: 1-3/4" D: 1" WT: .12

# SPECIFICATIONS:

P/N: PZEM-002 (V3.0) Display: Transflectve LCD .68" Digit height Voltage Operating Range: AC 80-270V Rated Power: 30A/6600W Frequency Range: 45-65 Hz. Voltage Measuring Range: AC 80~264V Current Measuring Range: 0-40.00A Power Measurement Range: 0-9000W Energy Measuring Range: 0-9999.99KWH Operating Time Measuring Range: 0-9999hr .59min. (9999:59) Power Alarm: Adjustable limit (Flashes Display when Load watts exceed setting) Measuring Accuracy: 1.0% Storage: Retains Accumulated Watts (KWHr) and Accumulated Run Time

# **DISPLAY FUNCTIONS:**

Voltage, Current, Watts, Accumulated Watts (KWHr), Accumulated Run Time.

#### MODES:

Normal: Displays Selected Parameter (V/I/W/etc) Power Alarm: Sets limit of the Watts: 1st select "W" display Press SET, OK to select Digit, Reset Modes: Resets to "0" the Accumulated KWHrs. or Run Time

#### **BUTTON FUNCTIONS:**

#### UP

Normal Display Mode: Short Press to cycle the displayed parameter through V/A/W/KWHr/Run Time Power Alarm Set Mode: Short Press to Increase setting by 1

Accumulated KWHr and Accumulated Run Time Mode: Short Press to Exit after clearing (Reset to 0)

### DOWN

Normal Display Mode: Short Press to reverse cycle through V/A/W/KWHr/Run Time Power Alarm Set Mode: 1st Select "W" display Press SET, OK to select Digit, Short Press DOWN to Decrease setting by 1

Accumulated KWHr and Accumulated Run Time Mode: Short Press to Exit after clearing (Reset to 0)

# SET

Power Display, Long (>3sec.) press to enter the Power Alarm limit Set mode (Display Flashes) Accumulated KWHr and Accumulated Run Time Mode: Long Press to enter reset mode (Reset to 0)

# οκ

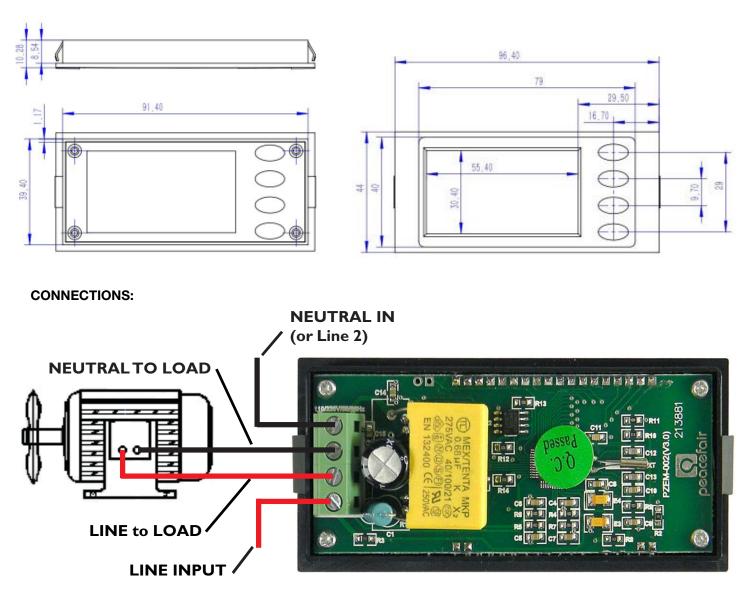

Normal Display Mode: Short Press to turn the Backlight ON/OFF

Power Alarm Set Mode: Short Press to Cycle through selecting each of the 4 Digits Use UP/DOWN to Adjust value of Selected Digit. After 4th Digit, Display returns to Normal Mode Accumulated KWHr and Accumulated Run Time Modes: Short Press to clear (Reset to 0)

# DIMENSIONS:

For 120VAC Single Phase: Connect Line to "Line Input" Terminal, and Neutral to "Neutral In" Terminal For 220VAC Single Phase: Connect Line 1 to "Line Input" Terminal, and Line 2 to "Neutral In" Terminal
